DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Allowable Subject Matter

4. Claims 15-19, 21, and 22 are allowed.

5. The following is a statement of reasons for the indication of allowable subject matter: the instant application is deemed to be directed to a nonobvious improvement over the invention patented in US Patent 5,196,702. The improvements comprise in combination with other recited elements, a first conductive member provided at a location in or on the face of the recording photoconductive layer which is close to the reading photoconductive layer; a first conductive member is provided between the

charge storing section and the second electrode layer; a first conductive member having a second stripe electrode, formed of a plurality of line-shaped electrodes, and has a shading property with respect to the reading electromagnetic wave wherein the line-shaped electrodes of the second stripe electrode are arranged so that the line-shaped electrodes of the second stripe electrode and the line-shaped-electrodes of the first stripe electrode are alternately disposed; and a control voltage application means for applying, to the first conductive member, a control voltage to adjust the electric field formed between the first electrode layer and the second electrode layer by a DC voltage applied by a first voltage application means.

Conclusion

1. This application is in condition for allowance except for the following formal matters: the claim objection note above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.
